## HEALTH TIPS

### Keep Your Kids Healthy this Winter

As you prepare for holiday parties and celebrations, follow these guidelines to have minimal impact on the health and well being of your youngest family members.

- Keep naptimes regular:**  
To keep a joyful atmosphere (and healthy child development) in the air, regular naptimes are best.
- Get your family flu shots:**  
Flu shots are for all but the littlest ones (under 6 months old).
- Keep healthy snacks/meals on hand:**  
Treats are unavoidable, but be prepared to offer youngsters healthy options as well.
- Wash hands regularly:**  
Gatherings bring joy, but also expose you to germs. Wash hands regularly to avoid spreading illness.
- Drink lots of water:**  
Nursing mothers need to stay hydrated to produce breast milk. Active children should drink 6-8 glasses of water daily.
- Keep a humidifier ready:**  
Starting to sense a cold coming on? Humidifiers help break down nasal congestion and are useful to counter dry winter weather and central heating systems.
