Dear Clover Families,
I wish you and your family a wonderful and well-deserved summer break that will refuel and refresh him/her for the coming school year. Here are a few tips to maintain the learning without making it seem like school work.

- Read with your child every day or as often as possible for just a brief amount of time.
- To keep up their math skills, play a variety of math games. If you don't have much time, encourage your child to do a color by number activity.
- Play the game, "I see something you don't see and the color (or the shape) IS..." Your children can name the items or foods that are in the kitchen and that fit the description until they get to the item you have in mind.
